

Dear Families,

Seven staff members on the Evergreen campus have tested positive for COVID-19. Four people are currently under quarantine at home and three others have recovered and been cleared to return to work by Evergreen's Infection Control Preventionist and Employee Health Nurse. We continue to follow guidance issued by public health and the CDC to safely manage the situation. Individuals who have come into contact with a person who tested positive have been notified.

A fourth round of resident testing was completed in the Health Center on Wednesday and all results were negative. Ongoing testing will continue per state guidelines.

Staff will continue to complete symptom screening before each shift and we are following state guidance for on-going testing. Staff impacted by COVID-19 are following quarantine all guidelines.

We hope to be able to re-assess visitation in the Health Center after our next round of testing. Families will be notified once visitation can resume.

For more information regarding Evergreen's COVID-19 response, please visit our website at www.EvergreenOshkosh.com. Thank you for continuing to trust us with the care of your loved one.

Stay well,

Peggy Bellin
Vice President Health and Support Services
