

Memorandum
April 22nd, 2021

To: Evergreen Independent Living Residents
Re: Campus updates

COVID status update:

Since the last memo on April 8th, we've had no COVID-19 positive test results

We are continuing to watch trends in the Oshkosh community, Wisconsin, and surrounding states. Please remain vigilant and continue to use caution to help keep our residents, staff, and visitors safe. According to Centers for Disease Control (CDC) data, there is still moderate to substantial community transmission throughout the state of Wisconsin. Over the last several weeks we have seen a slight but steady rise in county positivity rates and there are two counties in Wisconsin that are back above 10% positivity rate. Very high numbers are also being reported in Minnesota and Michigan. The vaccine is only one step in reducing COVID rates and keeping people safe.

Important Reminders:

If you choose to invite guests to Evergreen, we ask that you take extra precautions to keep yourself and the Evergreen community safe and healthy. This includes:

- Keep gatherings as small as possible and in your accommodations
- Please do not travel through the building more than necessary
- No guests in The Trellis or Pub 67
- Be aware of the people you have contact with
- Please wear your mask over your nose and mouth
- Social distance as much as possible, a minimum of 6'
- Wash your hands regularly
- Please be sure to have guests sign in at the kiosks at door 1 or 2

If you choose to leave Evergreen we ask that you continue to practice safe habits and be aware of whom you are with as you have been.

Please return to your accommodation and notify the Campus Health Nurse at 237-6260 immediately if you have any contact with COVID-19 or experience any signs or symptoms of COVID-19 including, but not limited to:

- New or worsening cough, loss of taste or smell
- Shortness of breath or difficulty breathing
- Fever or chills, sore throat, headache or muscle aches

Thank you for your continued support as we continue to navigate the ever changing conditions. Stay well!
